Sponsorship Packet

RamBots
Team 2204 – California Crosspoint Academy

Hello there,

We're the RamBots, a group of high school students from California Crosspoint Academy in Hayward, CA who are part of FIRST Robotics. We wanted to reach out and express our gratitude for taking a moment to check us out.

FIRST Robotics is a global organization that provides students from all backgrounds with opportunities to learn about science, technology, engineering, and math (STEM). The goal of FIRST Robotics is to inspire students to pursue careers in STEM and make a positive impact in the world.

We're really looking forward to this year's FIRST Robotics Sacramento Regional competition. It's a chance for us to show off all the hard work and skills we've been developing as a team. We come from all different backgrounds and interests, but we're brought together by a love of science, technology, engineering, and math. Through hands-on projects and the competition, we're constantly pushing our limits and learning new things.

But here's the thing - we need your help to make it all happen. Building robots takes a lot of time, money, and materials, and we're counting on the support of kind people like you to help us reach our goals. In return, we'd be honored to display your name or company on our robot and in our promotional materials. Plus, we're a registered 501(c)(3) non-profit organization, so your donation is tax-deductible.

We're also always looking for mentors who can share their knowledge and experience with us. If you have expertise in any of the fields we're working in, we'd love for you to be a part of our team as a mentor. Your guidance and support can help shape the future and make a real impact on our students' lives.

We believe in the potential of our team to make a difference, and we're eager to show everyone what we're capable of. We hope you'll consider supporting the RamBots and join us on this exciting journey.

For more information or to contact us, please email us at firstrobotics@crosspointacademy.org

Sincerely,
RamBots (FIRST Robotics Team 2204)
California Crosspoint Academy

What defines us:

The RamBots, FIRST Robotics Team 2204, was established in 2007 in San Leandro, California. Since then, the school has moved to Hayward and provides students with a chance to pursue their interests in science, technology, engineering, and mathematics. The FIRST Robotics Competition allows the team to sharpen their critical thinking, problem-solving, and teamwork skills while having fun and gaining knowledge about robotics. The team is proud of its history and eager to contribute to the advancement of STEM education.

Currently, the team is composed of 30 student members from California Crosspoint Academy and Redwood Christian Schools, 3 teachers, and 5 mentors. The mentors include current competitors from the BattleBots® TV show and former engineers from Bay Area Rapid Transit (BART).

With the program, students have the capability to:

- Acquire hands-on technical skills development in engineering, design, and fabrication through hands-on projects and teamwork.
- Develop entrepreneurial skills through learning how to manage a budget and allocating resources effectively.
- Enhance leadership skills through project management, team coordination, and communication.
- Gain inspiration for further education and career pursuits in STEM fields through exposure to cutting-edge technology and real-world applications.
- Access over \$14 million in college scholarships exclusively through participation in the FIRST program, providing a path to higher education and future success.
- Collaborate with a community of like-minded students and mentors from diverse backgrounds, fostering a sense of camaraderie and teamwork.
- Gain recognition and showcase their achievements to potential employers and educational institutions.

Awards:

- Woodie Flowers Mentor Award (2020)
- Creativity Award *sponsored by Rockwell Automation* (2023)
- Dean's List Semi-Finalist (2023)

Sponsors play a crucial role in supporting our FIRST Robotics Team. Their contributions enable us to provide students with a positive learning environment that nurtures STEM education and develops lifelong skills that will benefit them as future professionals. With your monetary or material sponsorship, you'll help us cover the cost of essential components for building a robust, competition-ready robot. Furthermore, your support will aid us in upgrading our workshop with new tools, equipment, and training resources, enabling us to teach the next generation of STEM enthusiasts.

Here is a breakdown of RamBot's yearly expenses:

Item	Description	Cost
Registration	Registration fee to compete in the competition	~\$6,000
Robot Parts	Items like circuit boards, gears, raw materials (wood, plastic, 3D printing filament, aluminum, etc), wheels, etc	~\$4,000
Lodging, Travel, and Meals	The expenses incurred during the trip to the Sacramento Regional Competition.	~\$5,000
Total		~\$15,000

Sponsorship Levels

- Bronze Ram (\$100+)
 - Thank you letter from our team president
 - Small company logo/name on our website
- Silver Ram (\$1000+)
 - Thank you letter from our team president
 - Medium-sized company logo/name on robot, merchandise, and website
 - Acknowledgment of your support on our social media platforms
- Gold Ram (\$2500+)
 - Thank you letter from our team president
 - Large company logo/name on robot, merchandise, and website
 - Customized gift made by our engineering and fabrication team
 - Acknowledgment of your support on our social media platforms
 - Public recognition of your support during competitions and events
 - Personalized tour of our building facilities and robot demonstration
